ZOLTÁN EZRA BELLÉR

DIGITAL STRATEGIST | FULL-STACK DEVELOPER | AI SPECIALIST

+36 30 798 5995 hello@bellerzoltanezra.hu Budapest | Remote

PROFILE

I believe that true value in today's world does not come from a single specialization, but from the ability to connect knowledge across different fields:
bridging technology, business mindset, and creativity.

EDUCATION

University of Debrecen | 2020-2024
Faculty of Informatics

BSc in Business Informatics
The Business Informatics program equips students to identify real-world business processes and organizational challenges, solving them effectively through modern information technology, spanning from application development to business intelligence and organizational knowledge management.

EXPERIENCE

Sole Proprietorship | 2025 – Present

Freelance Developer
High-level full-stack development and automation, Awwwards-category UI/UX design, and quantitative algorithm development for active day trading.

BossTech AI Solutions Kft. | 2024 - 2025

AI Trainer & Developer
Development of AI-powered chatbots, MCP servers, data processing and workflow optimization tools, as well as implementing AI integrations for various business systems.

SilkRoad Models LLC | 2022 - 2024

Manager & Traffic Manager
My responsibilities included coordinating a team of over 30 people, planning and executing social media strategies, campaigns, and managing 7+ international influencer projects.

Raiffeisen Bank Zrt. | 2021 -2022

Risk Management Intern
Interpreting financial reports, risk assessment, and database management. My first serious experience gained in a corporate environment, which laid the foundation for my precise, data-driven mindset.
